

The PA Sprint Series is a regional RaceSaver®/IMCA Sprint series established in 1998 as one of the first additional RaceSaver® sprint regions to grow out of the original Virginia Sprint Series. The popularity of Sprint Car racing in Central Pennsylvania helped PASS take a leadership role in growing the RaceSaver® brand of racing with additional regions added in New Jersey, New York and in Western PA following the growth in popularity of PASS.

A focus on Recreational racing with strict rules enforcement along with an affordable purse for tracks helped RaceSaver® grow throughout the country leading to nationwide sanctioning IMCA in 2014.

The series is managed by volunteers dedicated to creating a fun environment and a respect for fellow drivers in an environment of controlling costs. While being managed by volunteers the series maintains a very professional image which rivals some of the top racing organizations.

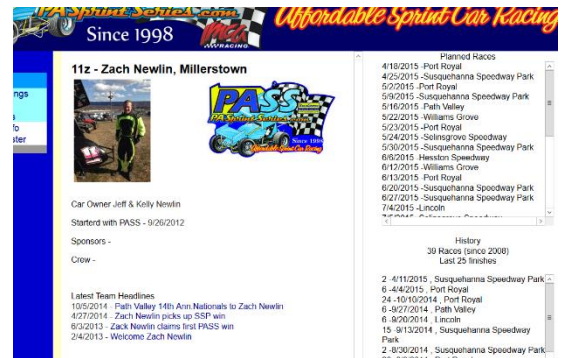

**We're everywhere in Central PA!** - As a traveling series the PA Sprint series sees regular competition throughout Central and Northern PA. The series is a regular at Port Royal Speedway, Susquehanna Speedway (In Newberrytown), Racing for Heroes Speedway (in Lock Haven) and at Path Valley Speedway in Dry Run PA. The series also has special events at Williams Grove Speedway, Selinsgrove Speedway and Lincoln Speedway which put us in front of the regular fans of all the most popular tracks in the area and several of **the most sought after speedways IN THE COUNTRY**

**PASSprintSeries.com** – The series web page has been on-line since 2001 and boasts thousands of page views per month.

The web page not only offers a place to get the latest news and information but is an important part of managing the series. Teams Register through the web site and can log in to get the latest updates behind the scenes. Additionally teams can enter and update their own team information

including their planned schedule building their own team web site for fans. This one of a kind interaction ensures that teams keep visiting the site and fans log in to learn the progress of their favorite team.

**Social Media** – In 2013 PASS established a social media presence on Facebook which has developed into one of the most enjoyable social sites in racing.
